Pensacola, Florida 32514

### RE: Rhythm DRI ADA Third Sufficiency Review

Dear Mr. Gray,

District staff have reviewed the Second Sufficiency Response provided for the Rhythm DRI (FKA Florida Landings) Application for Development Approval (ADA). The responses and previous information provided appear sufficient for a review of water resource impacts of the proposed development. The responsiveness demonstrated by the applicant with respect to the questions and concerns of District staff is appreciated. It is not anticipated that District staff will have extensive comments on the proposal.

Given the changes in the development plan described, an update to the water and sewer demand projections (tables from Question 17 in the original ADA) is requested.

District staff appreciate efforts taken by the applicant to protect water and related resources and are available to assist further in the development order development process. If there are any questions regarding this sufficiency review, please do not hesitate to contact either myself or Leigh Brooks at (850) 539-5999.

Sincerely,

A handwritten signature in black ink, appearing to read "Paul J. Thorpe".
